DATE DISTR. 20 JUN 50

NO. OF PAGES 1

NO. OF ENCLS.  
(LISTED BELOW)

SUPPLEMENT TO  
REPORT NO. 25X1X

1. The Veliki Crljeni electric power plant is located on the Belgrade-Lazarevac road, approximately two kilometers from the village of Stjepanovac. The purpose of the plant is to supply electric power to the Kolubarsko-Tamnavski district. Coal from the Kolubarski basin will be used by the plant when it is in operation.
2. The Trudbenik Construction Enterprise has been engaged in the building of the power plant since the fall of 1948. Project manager is Vladimir Predavec, an engineer and former officer in the Royal Yugoslav Army.
3. The first phase of construction was completed in September 1949. Since then the work has been delayed due to Czechoslovakia's refusal to furnish the machinery previously agreed on by contract. France has now agreed to provide this equipment.
